

## **Be Counted: Respond to the 2020 Census**

### **Have you responded yet to the 2020 Census?**

It has never been easier – or more important – for you to respond. By self-responding, you will not need a census taker to visit your home in person. The 2020 Census takes less than 10 minutes and will impact the community of Elysian for the next 10 years.

**Respond online: [2020Census.gov](https://2020Census.gov)**

**Respond by phone: 844-330-2020 (English) or 844-468-2020 (Spanish)**

### **Did you receive a paper questionnaire?**

Some Elysian homes received 2020 Census questionnaires delivered to their front doors in March, prior to when the Census Bureau suspended operations temporarily due to COVID-19. Now that the Census Bureau has resumed operations in Minnesota, some homes will now have paper questionnaires delivered to your home. When you do receive a paper questionnaire, please respond right away. It will help ensure the most accurate count of your household. If you did not receive a paper questionnaire or did not save your questionnaire, you can still respond online or by phone.

### **Why respond to the 2020 Census?**

The community of Elysian needs everyone to be counted. Census data is important to our community. We want to receive our fair share of representation in Congress and the Minnesota Legislature, and our fair share of federal and state funding.
