

Welcome to 2019. As your new Mayor, I want to thank everyone for giving me the opportunity to serve our great community.

Under the positive direction of our previous Mayor, and our first class staff working within Elysian, I hope to continue moving us forward. I will try and bring affordable housing and rental property into town and recruit businesses to join us in serving our community.

We have several things to do in 2019. We need to continue with the finishing touches on our new concession stand at the Lake Field. We need to evaluate further street projects and work with MN Dot to ensure the upcoming Hwy 60 project is done with little disruption to Elysian.

Elysian is one of the finest cities around and well worth the visit to view our beautiful lakes and enjoy our outstanding businesses.
