Lorri Kopschke  
City Administrator

Ron Greenwald  
Public Works Director

May 23, 2019 | Project Update No. 20

This letter is being sent to inform you of current and upcoming construction activity on the above-referenced project.

Weather permitting, the contractor will begin placing the final layer of bituminous on the project on Tuesday or Wednesday, May 28th or May 29th. It will take one to two days to complete the paving. The contractor will place "no parking" signs on the project prior to this final paving. **Once streets have been rolled and the bituminous has cooled, pavement can be driven on. However, please avoid parking or turning your wheels on the new pavement, if possible, as this can leave marks, especially in hot weather.**

Despite the paving of the final layer of bituminous, work for this spring is not yet complete. There are still a number of warranty and punch list items that are yet to be addressed. There is additional topsoil placement and additional seeding that will be taking place before the turf establishment is accepted. If you have any outstanding items that you are concerned about, please contact me.

Please remember that schedules can change at a moment's notice because of weather, delays by subcontractors, or other unforeseen events.

We want to thank everyone for their continued patience and cooperation in making this project a success!

If you have any questions or concerns, feel free to contact me or City Engineer/Project Manager Chris Cavett. Have a safe and happy Memorial Day!

Lee Istvanovich  
Resident Project Representative
